Front End Developer

Highly motivated individual with a focus on front-end web development and a passion for coding. Confident communicator, eager to leverage comprehensive training to solve challenging problems and create impactful, user-friendly applications. Experienced people leader with a strong emphasis on motivation, education, collaboration and prioritizing client experience.

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6), SQL

Frameworks/Libraries: React, Node.js, Python, Flask, Tailwind, GSAP

Database: MySQL

Tools: Git, GitHub, Visual Studio Code, Postman

Soft Skills: Problem-solving, teamwork, effective communication

PROJECTS

FOOD POINT - RESTAURANT LOCATOR: <https://github.com/jamescorriveau/Food-Point>

- Developed a dynamic, user-friendly restaurant discovery platform using React, featuring real-time location-based restaurant search and detailed information display.
- Created "Food Point," a user-friendly restaurant finder using React, with live location-based search and detailed restaurant information.
- Integrated geolocation services for tailored restaurant suggestions and designed a responsive, visually appealing UI with CSS, enhancing user engagement and accessibility.

PARK LENS - SOCIAL MEDIA PLATFORM: <https://github.com/jamescorriveau/national-park-app>

- Designed and developed an interactive social media platform using React for the front-end, with a focus on national park photography. Features include photo uploads, user profiles, and follower management.
- Integrated SQL and Flask for backend operations, enabling functionalities like user authentication, comments, and post management, along with real-time data updates.
- Implemented comprehensive RESTful API services for efficient data retrieval and manipulation, ensuring seamless user interactions and content management.

Whisk - E-commerce Store: <https://github.com/jamescorriveau/Whisk-Culinary>

- Developed a comprehensive e-commerce platform focusing on culinary tools and equipment.
- Engineered a bespoke inventory system with db.json and Flask to manage a diverse range of products.
- Integrated a functional shopping cart and established a PayPal sandbox environment for secure checkout.
- Used CSS and Tailwind for the site's design, and GSAP for scroll logo animations and header collapse.

EXPERIENCE

FLAGSHIP CULINARY SERVICES AT META

SEPT 2014 - SEPT 2023

Executive Sous Chef

- Career Progression: Advanced from Line Cook to Executive Sous Chef.
- Leadership: Led a diverse team of 75+, promoting teamwork and high performance.
- Operations Management: Managed daily culinary operations, ensuring efficiency and high standards.
- Staff Development: Developed and mentored staff, resulting in career advancements to Chef and Manager roles.
- Continuous Improvement: Enhanced customer experience through operational improvements and service excellence.

EDUCATION

FLATIRON SCHOOL, NEW YORK, NY

OCT 2023- FEB 2024

Full Stack Development Program

- Achieved Full Stack Software Development Certification upon completion.
- Gained proficiency in HTML, CSS, JavaScript, ReactJS, Python, Flask, and SQL.
- Developed a comprehensive understanding of software development life cycle, agile methodologies, and version control using Git.
- Collaborated on multiple team projects, emphasizing code quality, peer review, and iterative development.
